

Free Pedestrian Management Checklist

Use this quick checklist when preparing your Pedestrian Management Plan (PMP) and Traffic Guidance Scheme (TGS). Tick each item before lodging.

- ☐ Continuous route maintained (no dead ends)
- ☐ Accessible ramps where levels change; lips bridged; surfaces firm and even
- ☐ Minimum temporary widths achieved; pinch points removed or signed
- ☐ Crossings protected; sight distance preserved at driveways/intersections
- ☐ Lighting for night works and within hoardings/gantries
- ☐ Wayfinding at every decision point; detours signed in both directions
- ☐ Devices, tapers, buffers and controller positions per AGTTM and shown on the TGS
- ☐ TMP covers emergency access and incident response
- ☐ Insurances and competency evidence attached
- ☐ Approval pathway confirmed: council occupation and/or MoA; allow realistic timeframes and any ROC if on a declared arterial

Attach photos of existing conditions and reference drawing numbers for each TGS stage.
